Persons with Disabilities ³	—	—	26,939 ± 789	12.8% ± 0.4%	23,561 ± 1,334	8.7% ± 0.5%
Total Households	53,598	—	71,201	—	93,545	—
Households with Children under 18	29,969	55.9%	37,254	52.3%	45,647	48.8%
Households with Persons over 65	7,991	14.9%	11,745	16.5%	17,275	18.5%
Single Parent with Children under 18	4,498	8.4%	6,263	8.8%	8,381	9.0%
Large Families (5 or more persons)	14,351	26.8%	16,937	23.8%	22,032	23.6%
Owner-Occupied Housing Units	39,711	74.1%	55,195	77.5%	73,071	78.1%
Renter-Occupied Housing Units	13,887	25.9%	16,006	22.5%	20,474	21.9%

¹ Since the 1990 Census tabulated Asians and Pacific Islanders as one category, the 1990 Asian and Pacific Islander populations are derived by summing the individual races listed in the 1990 Summary Tape File 1A. This derivation includes Hispanics and non-Hispanics, so the sum of the Asian and Pacific Islander populations is slightly larger than the aggregated Asian or Pacific Islander category, which includes only non-Hispanics. The reported Asian and Pacific Islander populations for 2000 and 2010 are non-Hispanic.

² The 1990 Census did not have a category for multiple races.

³ The margins of error for the disability data are associated with 90% confidence intervals. Since Census 2000 did not gather disability data on the population under age 5, the 2010 data (derived from the 2009–2011 American Community Survey 3-year estimates) have been adjusted to exclude the age group under 5. Despite these age adjustments, the two data points are not comparable given changes in survey design and revisions in the definition of disability.

¹ Since the 1990 Census tabulated Asians and Pacific Islanders as one category, the 1990 Asian and Pacific Islander populations are derived by summing the individual races listed in the 1990 Summary Tape File 1A. This derivation includes Hispanics and non-Hispanics, so the sum of the Asian and Pacific Islander populations is slightly larger than the aggregated Asian or Pacific Islander category, which includes only non-Hispanics. The reported Asian and Pacific Islander populations for 2000 and 2010 are non-Hispanic.

² The 1990 Census did not have a category for multiple races.

³ The margins of error for the disability data are associated with 90% confidence intervals. Since Census 2000 did not gather disability data on the population under age 5, the 2010 data (derived from the 2009–2011 American Community Survey 3-year estimates) have been adjusted to exclude the age group under 5. Despite these age adjustments, the two data points are not comparable given changes in survey design and revisions in the definition of disability.

¹ Since the 1990 Census tabulated Asians and Pacific Islanders as one category, the 1990 Asian and Pacific Islander populations are derived by summing the individual races listed in the 1990 Summary Tape File 1A. This derivation includes Hispanics and non-Hispanics, so the sum of the Asian and Pacific Islander populations is slightly larger than the aggregated Asian or Pacific Islander category, which includes only non-Hispanics. The reported Asian and Pacific Islander populations for 2000 and 2010 are non-Hispanic.

² The 1990 Census did not have a category for multiple races.

³ The margins of error for the disability data are associated with 90% confidence intervals. Since Census 2000 did not gather disability data on the population under age 5, the 2010 data (derived from the 2009–2011 American Community Survey 3-year estimates) have been adjusted to exclude the age group under 5. Despite these age adjustments, the two data points are not comparable given changes in survey design and revisions in the definition of disability.

Renter-Occupied Housing Units	493	31.6%	531	27.4%	628	21.6%

¹ Since the 1990 Census tabulated Asians and Pacific Islanders as one category, the 1990 Asian and Pacific Islander populations are derived by summing the individual races listed in the 1990 Summary Tape File 1A. This derivation includes Hispanics and non-Hispanics, so the sum of the Asian and Pacific Islander populations is slightly larger than the aggregated Asian or Pacific Islander category, which includes only non-Hispanics. The reported Asian and Pacific Islander populations for 2000 and 2010 are non-Hispanic.

² The 1990 Census did not have a category for multiple races.

³ The margins of error for the disability data are associated with 90% confidence intervals. Since Census 2000 did not gather disability data on the population under age 5, the 2010 data (derived from the 2009–2011 American Community Survey 3-year estimates) have been adjusted to exclude the age group under 5. Despite these age adjustments, the two data points are not comparable given changes in survey design and revisions in the definition of disability.
