

# U.S. Census Bureau Estimates for Incorporated Places and Housing Units, 2018

The Census Bureau's most recent release on May 23, 2019 provides population estimates for incorporated places (cities and towns) and housing unit estimates at the state and county level from Census 2010 to July 1, 2018. Townships or other unincorporated communities are not included in this release.<sup>1</sup>

The city level estimates utilize locally submitted building permits as the basis to estimate population. They are then controlled to the county estimate totals, which were published in March 2019.

### **National Picture**

Cities in the southern region of the United States experienced some of the fastest growth and largest gains in population between 2017 and 2018, largely driven by cities in Texas. The West was the next major contributor to population growth, with six cities in the top 15 for population gains.

Housing units increased steadily in most states. Texas, Florida, California, and North Carolina added the most housing units from 2017 to 2018.

### **Utah in the National Context**

According to the 2018 Housing Unit Estimates, Utah experienced the fastest housing unit growth between 2017 and 2018 at 2.2 percent. Idaho was second, while Colorado and Texas tied for third. Since 2010, Utah had the second highest increase in housing units (13.2 percent) behind North Dakota (18.9 percent). Most of the absolute growth of housing units in Utah came from Salt Lake, Utah, and Washington counties. The fastest housing unit growth occurred in Washington, Utah, and Wasatch counties, with each appearing in national rankings for fast housing unit growth in the past year (4<sup>th</sup>, 9<sup>th</sup>, and 11<sup>th</sup>, respectively).

Vineyard, located in Utah County, was the fastest growing place (with a population over 1,000) in the nation between 2017 and 2018 at 62.8 percent. This equates to an increase of 3,877 residents of Vineyard, from a total population of 6,175 in 2017 to 10,052 in 2018. South Jordan ranked twelfth in the nation for population growth in large cities (population 50,000 or more) in the past year, with a 4.4 percent growth rate.

## **Utah at the Top of National Rankings**

| Ranking  | Area                 | Percent Growth |
|--|----------------------|----------------|
| 2017-2018  |                      |                |
| Fastest Housing Unit Growth  | State of<br>Utah     | 2.2%           |
| Fourth Fastest Housing Unit Growth (counties with over 5,000 housing units)    | Washington<br>County | 4.6%           |
| Ninth Fastest Housing Unit Growth (counties with at least 5,000 housing units) | Utah<br>County       | 4.1%           |
| Fastest Growing Place<br>(places over 1,000 population)                        | Vineyard             | 62.8%          |

### 2010-2018

| Second Fastest Housing Unit Growth   | State of<br>Utah | 13.2% |
|--|------------------|-------|
| Second Fastest Population Growth in<br>Large Cities (population at least 50,000) | South<br>Jordan  | 46.9% |

### Cities in Utah

Utah's statewide growth between 2017 and 2018 was the third highest in the nation, with a 1.9 percent increase (57,987 individuals). While Herriman was the city with the largest contribution to statewide growth, other cities in southern Salt Lake County and northern Utah County also played a significant role. The cities in these areas (as well as Vineyard, in central Utah County) have frequently held high rankings since 2010 – whether in absolute increase or percent increase.

The Census Bureau estimates indicate that Herriman, Vineyard, Eagle Mountain, South Jordan, and American Fork were the top five cities in terms of absolute population growth between 2017 and 2018. The Salt Lake and Utah county cities on the top ten list produced 44 percent of the statewide population growth between 2017 and 2018.

Similar to the national picture, Utah's fastest growing cities all had populations of 50,000 or less. Vineyard maintained the top ranking of cities with the largest percent population growth between 2017 and 2018, at 62.8 percent. This continued jump in growth results in a total population of 10,052 in Vineyard. Other cities with high percent population growth were Herriman (14.4 percent), West Haven (12.6 percent), Eagle Mountain (10.9 percent) and American Fork (10.3 percent). This

maintains the trend of Vineyard and cities in southern Salt Lake County and northern Utah County being the fastest growing areas in the state since the 2010 Census.

The largest cities in the state are Salt Lake City (200,591), West Valley City (136,401), Provo (116,702), West Jordan (116,046) and Orem (97,521). The fastest growing large cities (populations of 50,000 or more) were South Jordan (4.4 percent), Lehi (3.7 percent), St. George (3.2 percent) and West Jordan (1.7 percent). Nearly 43 percent of Utah's population lives in large cities, even greater than the national level of nearly 39 percent.

Although there was growth across the state, 16 cities with populations over 1,000 experienced population decline according to the Census Bureau estimates. The cities with the largest absolute population decline were Provo, Pleasant Grove, Springville, Orem, and Cedar Hills. The cities with the largest percentage decrease in population were Cedar Hills (-0.9 percent), Pleasant Grove (-0.9 percent), Hildale (-0.7 percent) and Provo (-0.7 percent). Three of these cities are in Utah County, which grew rapidly overall.

# Cities (1,000 or larger) with the largest absolute increases, 2017-2018

|                  |            | Populatio | n Estimate | 2017-2018       |
|------------------|------------|-----------|------------|-----------------|

# **Endnote**

<sup>1.</sup> For each county, a single "balance of county" estimate is available which groups all areas of the county which are not officially incorporated cities or towns as recognized by the Census Bureau (for example, "Balance of Salt Lake County"). These estimates are not included in this fact sheet.
