

# Utah State and County Annual Population Estimates by Single-Year of Age, Sex, and Race/Ethnicity: 2010-2019

## Race/Ethnicity Categories

These estimates use seven non-overlapping categories of race and ethnicity.

- Non-Hispanic
  - Single-Race
    - White
    - Black or African American
    - American Indian or Alaska Native
    - Asian
    - Native Hawaiian or Pacific Islander
  - Two or more races
- Hispanic

## Overview

Utah's population continues to diversify. Between 2010 and 2019, the share of the population identifying as minority (something other than non-Hispanic White alone) increased from 19.5% to 22.2%. But the patterns are different at the county level. In 2019, the minority share of each county ranged from 5.6% in Morgan County to 55.5% in San Juan County.

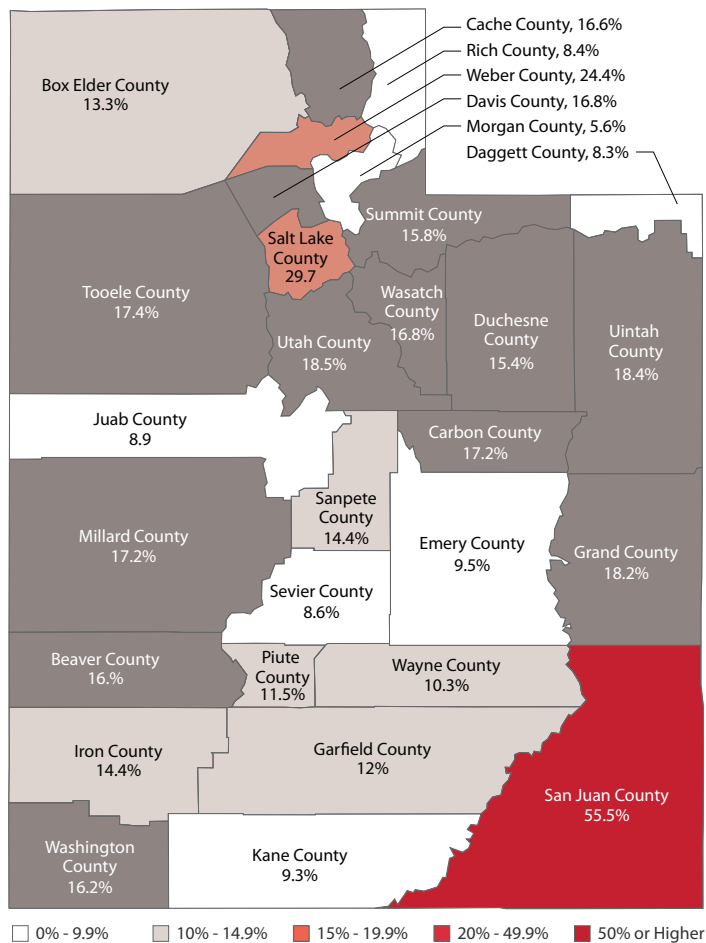

Racial/ethnic identification also varies by age. While only 10.2% of Utah's retirement age population (65 and older) is a minority, that number is 26.7% for children

(under 18), and 25.6% for the college age population (18-24).

## What data are available?

These estimates are available for counties by single-year of age (0 through 100+) and sex and for seven racial/ethnic categories. For the state of Utah, and the five largest counties (Salt Lake, Utah, Davis, Weber, and Washington), full detail are provided: population by age and sex for each race/ethnic group. For the other counties and the seven Associations of Government Multi-county Districts, the available data include population by age and sex for majority and minority groups, and annual total population for each race/ethnic group.

## Population (and percent) in each Race/Ethnic Group for Utah, and its Five Most Populous Counties, 2019

	State of Utah		Salt Lake County		Utah County		Davis County		Weber County		Washington County	
White	2,504,885	77.8%	810,045	70.3%	531,193	81.5%	297,083	83.2%	191,699	75.6%	151,275	83.8%
Black or African American	38,226	1.2%	21,249	1.8%	4,062	0.6%	4,330	1.2%	3,434	1.4%	1,228	0.7%
American Indian or Alaska Native	30,537	0.9%	7,383	0.6%	2,928	0.4%	1,536	0.4%	1,295	0.5%	1,845	1.0%
Asian	82,010	2.5%	50,967	4.4%	11,744	1.8%	6,967	2.0%	3,709	1.5%	1,706	0.9%
Native Hawaiian or Pacific Islander	31,533	1.0%	19,005	1.6%	5,735	0.9%	2,633	0.7%	737	0.3%	1,525	0.8%
Two or More Race	68,958	2.1%	26,833	2.3%	15,614	2.4%	8,106	2.3%	5,200	2.1%	3,274	1.8%
Hispanic	464,113	14.4%	217,480	18.9%	80,129	12.3%	36,314	10.2%	47,383	18.7%	19,705	10.9%
All Race Groups	3,220,262	100.0%	1,152,961	100.0%	651,405	100.0%	356,969	100.0%	253,457	100.0%	180,558	100.0%

\* Individuals claiming Hispanic, Latino, or Spanish origin are categorized as Hispanic and can be of any race. Non-Hispanic persons can be classified as a single race alone—White, Black or African American, American Indian or Alaska Native, Asian, Native Hawaiian or Pacific Islander—or as two or more races.

### How did we generate these estimates?

Statistical models generated these estimates from two data sources: (1) previously-published population estimates<sup>1</sup> generated by the Utah Demographic and Economic Model (UDEM)<sup>2</sup>, and (2) population estimates from the U.S. Census Bureau.<sup>3</sup> The full dataset is publicly available on the Gardner Institute website

### Why do these numbers differ from other published sources?

The Kem C. Gardner Policy Institute produces an annual suite of population estimates that control to Utah Population Committee<sup>4</sup> total population estimates for Utah and its

counties. This fact sheet includes a subset of these estimates. The Census Bureau produces similar population estimates used for federal purposes. These estimates differ from the Census Bureau because they incorporate additional local data sources and knowledge to account for unique Utah population characteristics, and also add additional detail. They are generated using statistical models including UDEM. Users interested in state-level projections by race/ethnicity should consult the Gardner Institute's previously-published projections<sup>5</sup>.
